DEVI SUREKHA TAMALAMPUDI

Rajahmundry, Andhra Pradesh | +91 9642669729 | surekhareddy1147@gmail.com | LinkedIn | GitHub | LeetCode | HackerRank

PROFESSIONAL SUMMARY

Computer Science undergraduate with a CGPA of 9.05/10 and hands-on experience in Java, C++, Python, SQL, web development, REST API integration, and AWS cloud technologies. Strong foundation in Object-Oriented Programming, Data Structures, DBMS, Operating Systems, and Software Engineering. Experienced in developing web-based applications and working with APIs, databases, and cloud data engineering concepts. Quick learner with strong analytical, problem-solving, communication, and teamwork abilities.

TECHNICAL & PROFESSIONAL SKILLS

Programming: Java, C++, Python, C
CS Fundamentals: Object-Oriented Programming, Data Structures, Algorithmic Problem Solving, DBMS, Operating Systems, Software Engineering
Databases: SQL, Relational Database Concepts
Web: HTML, CSS, JavaScript, Django, REST APIs
Libraries: NumPy, Pandas
Tools & Cloud: Microsoft Excel, AWS Tools, Git, GitHub, VS Code
Analytical Skills: Data Analysis, Analytical Thinking, Problem Solving, Debugging
Soft Skills: Communication, Teamwork, Team Collaboration, Adaptability, Quick Learning

EDUCATION

B.Tech – Computer Science | Pragati College of Engineering, Surampalem | CGPA: 9.05/10 | Expected 2028
Intermediate – MPC | Vignan Junior College | 97% | 2022–2024
SSC | TAR School | 93% | 2021–2022

INTERNSHIP EXPERIENCE

Full Stack Development – J2EE & Web 2.0 Technologies | Rashtriya Ispat Nigam Limited (RINL), Visakhapatnam Steel Plant | Jun–Jul 2026
- Completed internship and project work focused on J2EE and Web 2.0 technologies.
- Gained practical exposure to full-stack web development and software development concepts.

AI for Sustainability Virtual Internship | 1M1B & IBM SkillsBuild | May–Jun 2026
- Completed a virtual internship focused on applying Artificial Intelligence to sustainability-related problems.
- Gained exposure to practical AI concepts and technology-driven problem solving.

Data Engineering Virtual Internship | AICTE EduSkills – AWS Academy | Jul–Sep 2025
- Completed a structured AWS Academy Data Engineering program covering cloud data pipeline and storage fundamentals.
- Developed foundational understanding of cloud-based data engineering and AWS technologies.

PROJECTS

API Weather Dashboard
- Built a live weather dashboard using Python and a public weather API.
- Implemented real-time data fetching and display of current weather conditions.

EV Charging Station Finder
- Built a location-based application to locate nearby EV charging stations.
- Implemented search and results-display functionality for location-based information.

Smart Local Problem Reporting System
- Developed a civic-issue reporting platform allowing citizens to submit local problems and track resolution status.
- Implemented an end-to-end workflow for issue reporting and status tracking.

Library Management System
- Developed an application to manage book records, issue/return operations, and library inventory.
- Applied database and application-development concepts to manage library information.

CODING & PROBLEM-SOLVING

- LeetCode: Solved 100+ programming problems, demonstrating consistent practice in Data Structures and Algorithms.
- HackerRank: 5-Star Rating in Java, Python, Problem Solving, and Databases.

CERTIFICATIONS

- Salesforce Certified Agentforce Specialist — Salesforce • Python for Data Science (Elite) — NPTEL, IIT Madras • Quantum Computing — NPTEL, IIT Madras
- Introduction to Generative AI Foundations — Coursera • Alteryx Designer Advanced Certified — Alteryx • AI Skills Passport — Microsoft
- TCS iON Career Edge – Young Professional — TCS iON

WORKSHOPS & JOB SIMULATIONS

- Full Stack Development using Python — EduSkills • Data Analytics Job Simulation — Deloitte (Forage), Jul 2025 • Python Using AI Workshop — AI for Techies, Jul 2025
- 2-Day Workshop & 24-Hour Hackathon on Web Application Development — Pragati Engineering College
